The Internet Technical Architecture Conference (InTAC)

Promoting technical discussions of New Zealand's fibre future

----

What: A one-day conference to discuss issues related to the technical architecture and technical policy of ultra-fast broadband and fibre networks.

When: Tuesday, 10th July 2012

Where: SkyCity Convention Centre, Auckland

Who should attend: Those involved in developing fibre policy, building the network, and using the network to talk to one another about its technical underpinnings. This includes people working for Local Fibre Companies, Chorus, Retail Service Providers, Telecommunications firms, Content Providers, Technologists, and Government.

International keynote: Lev Gonick, the Chief Information Officer of Case Western Reserve University in Cleveland, USA.

How much: $60, inclusive of GST and lunch /networking drinks.

Co-sponsors: Ministry of Economic Development; FX Networks

To register: Email rsvp@internetnz.net.nz. Places are limited so we suggest interested people register at the earliest.
